**American SHIPS Arrive at Beirut.**

On Sept. 4th. the United States cruisers the Brooklin and San Francisco arrived at Beirut after their rapid voyage through the mediterranean.

**WAR IS RUMORED.**

It appears that Turkey must fight. From all reports we gather the idea that Turkey is unable to protect the legations of other governments at Constantinople; and war is eminent, that already some of the Turkish troops have crossed the Bulgarian Frontier.

**Americans Injured By Frenchmen.**

PEKIN, Sept. 4.—The severe wounds inflicted upon two Americans yesterday by French soldiers has created general indignation against the policy of the German and French commanders in ordering their soldiers to carry side arms while off duty. All of the other soldiers travel about unarmed. The witnesses of the affair of yesterday declare that the French were clearly the aggressors. The French commander treat the matter lightly, but a strong request for the punishment of the guilty parties has been made by Captain Andrew Brewster, a military attache of the American legation.

**Lays it on to Taylor.**

GEORGETOWN, Ky., Sept. 5.—T. G. Roach, who has been living at El Paso, Tex., is said to have caused a sensation yesterday at Juarez, Mexico, by the statement that former Governor W. S. Taylor and Caleb Powers would be willing to give \$100,000 for his head, and that he is in possession of papers, if made public, would clear Caleb Powers and condemn former Governor Taylor. The only connection of Roach with the Powers case, so far as generally known, is that Mrs. Roach was at the last trial and former trials a witness introduced to prove that Caleb Powers prior to the circumstances which culminated in his arrest, had assumed all responsibility for the bringing to Frankfort of the mountain men. Mrs. Roach was Miss Sadie Snuffer, a resident of the eastern Kentucky and identified a letter received by her from Caleb Power. Roach's statement that what they knew would clear Powers and condemn Taylor is not in keeping with such conditions.

In an interview at the Georgetown jail Powers said: "I know nothing about the Roach story. All I have to say is that somebody somewhere has information which if given out would clear me. Somebody killed Mr. Goebel—that we know. If the guilty parties would only come forward and tell the truth I would soon be a free man."—Springfield Leader.

**BARGENT ITEMS.**

By Carrie Nation.

Dear Editor and Friends

This long and lonesome evening with nothing to do but think, I thought I would write a few items for your valuable paper, from this part of the country, that is if you could spare me space in your paper for such nonsense.

We are having some very dry, and hot weather at present, but hopes are that we may get rain soon. But we seldom get everything we wish for, "Carrie" doesn't any way.

"Guess Who" you must come to see "Carrie" again and she will try and not let you talk so much so you will not be so restless, Hal! I guess we had so much to talk about that if we hadn't have talked till twelve o'clock, we would likely have left some part unaid.

Miss Loua McDannols and sister May, were the welcomed guests of Miss Katie Shryock and Alie Thomas Sunday evening, and Maynard McCallis called also, and of course Miss Alie was all smiles.

As this is my first attempt in writing to the "World's Cresset", and news is scarce around here, I will close with best wishes to the Cresset and its many readers.

**LOCAL TALK**

Cresset is only a had success this week.

—Every body bring their Bibles to Preaching next Sunday

—Any body receiving a sample copy of the Cresset, four more will follow, which will cost nothing, then if you want the Cresset longer, SUBSCRIBE.

—There are those who would not believe the truth though it was told them a thousand times over. But a big falsehood is what they glory in.

—Johny Bowers and wife members of the JAH-Ville Colony left JAH-Ville for to visit the father and mother of Johny Bowers living in Douglas County eight miles of Willow Springs, and intends on bringing the old folks back with them next Friday.

—Rev. Kenney called at this Office a few days ago and gave us a pleasant chat. He is canvassing for a medical firm. See Adds in another column. We believe Bro. Kenney to be one of our best citizens. One buying of him will get the worth of their money.

—Next Sabbath after Sabbath School at the Arbor, Rev. L. S. Garrett will preach a special sermon on the marriage life. After which he expects to join in Holy Matrimony Charley H. Dawson and Miss Lucy Salls. The Ed would like for every body to hear the sermon. Come out, come all.

—Quitting Bee was at the Arbor on last Monday quilting a quilt by the Ladies of the Theological School at this place, taught by Rev. L. S. Garrett. The two quilts are gotten up in honor of Freemasonry and Oddfellowship, will be put up in the near future, and drawn as a prize, by a number.

—There was an apple cutting at Mrs. Pax Delano's on last Thursday, and there was at leasten bushel of apples peeled and cut—This was one of the large apple cuttings, where there was lots of work done, it can't be beat. On the same day Mr. Delano raised his new barn 32 ft. by 62 when finished, Mrs. Delano set a fine dining, Mr. Delano and wife belong to the enterprising farmers of Texas Co.

**ALICE RAMBLINGS.**

By "Booco"

Hallo, kind Editor and correspondents, as I have not saw any news from this part: I would like to enter your cozy parlor for a short chat.

The farmers seem busy preparing their wheat ground.

Fred Freeman the merchant of Albee made a business trip to Springfield last week.

Monday morning Aug. 31st, dawned and between eight and nine O'clock the children of Murr District began to gather at the school house with smiling faces to greet their teacher Mr. O. A. Johnson who had a kind word for each and every one. About nine O'clock he rang the bell, which called in fifty-eight to enroll for the first day. He made quite an interesting talk after which he assigned each one their lessons for the remainder of the day. We wish the teacher and scholars much success during the ensuing term of six months of school.

Misses Lola and Omo Coble visited Bon Coble of Astoria last Sun.

Mr. John Rogers has been sawing regular for the last week, he thinks he will complete the sawing at his residence this week, after which he will move his saw over near Dykas.

Mr. M. A. Rogers's wife and children are making preparations to start to Wash, to him the first of Oct. where they expect to make their home in the future.

Let each and every one of us attend the Sunday school at Rock Springs and try to make it a school of success, for there is nothing more pleasaner than a successful Sunday school in each community.

Miss Antha Rogers and David Morris called on Miss Ada Bailey last Sunday evening.

There will be preaching at Rock Springs next Sat. and Sun. at 10 O'clock. Every body come.

Well "Flourantine" wake up and tell me, but don't let Lou know you told me.

Hurry up Mr. Nelson and answer "Silly Boy's" murmurings for I don't think he knows what he is talking about.

Well as this is my first and news is scarce, I will ring off.
